

## A New Milestone for BroVis !!!

We are immensely happy to let you know that we have been shipping our innovative, SMART wireless access systems for the last seven years and have exceeded 12,000 installations worldwide. Our footprint is increasing on a daily basis. We are already into shipping our third generation product line, which encompasses all our innovative technologies like Extended Range, Link Aggregation, Beam Forming, SMART MIMO, QOS, etc... We have a dominant market share in the hospitality, college/IT campus and backhaul segments. We continue to make inroads into other segments like IP Video Surveillance, Large Enterprises, Hospitals, Industrial Complexes, Residential Complexes, Logistics and Rural Connectivity. Thanks for your tremendous support and goodwill over the years. Wish you all a Very Happy New Year and great success in 2012.

### This Issue

- \* A New Milestone for BroVis
- \* Brovis' New Unified Access Point and Subscriber Manager
- \* Brovis' New Indoor SMART MIMO [AS 225-BGN]: A Great Success!
- \* Wireless Video Surveillance : A Wide Opportunity

- Muthu Logan, President and CEO, BroVis Wireless Networks

## Brovis' New Unified Access Point and Subscriber Manager

- **BAAM III PLUS** is an enterprise class, unified controller with Access Point Management and Subscriber Management with complete ease of use and remote access
- It offers the full range of network monitoring, configuration & fault management capabilities to maximize the effectiveness and minimize the cost of managing your networks
- Same system can be used for Subscriber Management like Authentication, Bandwidth Allocation, Profile Management, etc... an Industry first!
- Combines the functionality of many common, but often disparate networking devices, into a single, easy-to-deploy appliance which reduces cost and complexity

- **AP Management**
  - Discovery Mapping
  - Fault Management
  - Configuration Management
  - Firmware Up gradation
  - Access Point Logs
  - Can manage up to 250 Access Points
- **Subscriber Management**
  - User Authentication
  - User Profile Management
  - User Logs
  - Billing/ Accounting
  - Bandwidth Allocation
  - Basic Firewall policies
  - Can manage up to 1000 users

• Can manage up to 1000 users  
• Basic Firewall policies  
• Bandwidth Allocation  
• Billing/ Accounting

## Brovis' New Indoor SMART MIMO [AS 255-BGN] : A Great Success !!!!

Identifying and meeting our customer needs with no compromise in product quality is key to Brovis' continued business success.

Brovis' new indoor SMART MIMO AS 255 -BGN is an example for that. It provides multimedia wireless connectivity based on IEEE 802.11n standards and indoor mobility with rich feature set and performance. It is a combined wired/wireless network connection device designed specifically for small business, office, hotel and home networking requirements.

AS 255-BGN

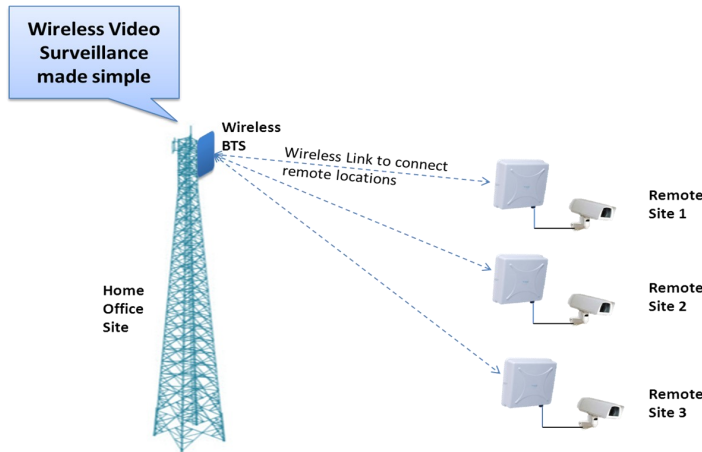

- Atheros chipset based Enterprise-class Access Point Router
- 4 LAN Port and 1 WAN Port to achieve the most effective data transmission
- 1X1 : Single Stream MIMO
- Customizable Antenna Technology
- High data rate, up to 150 Mbps
- Universal repeater mode
- Wireless Security Encryption made easy at a push of 'WPS' button
- 4 x 10/100 Mbps Ethernet Port Auto MDI/MDI-X support

## Wireless Video Surveillance : A Wide Opportunity

IP network cameras have changed the face of video surveillance. Today's video security solutions are more effective than ever before, providing new surveillance technology that's applicable to a wide range of end-users from the Retail Sectors to Schools, Colleges, Enterprises, Office Campuses, Transportation Systems etc..

Now, more than ever, security is on our minds and IP video surveillance offers us exciting new tools to protect better, those around us and ourselves. Brovis' WDS solution serves as an optimal solution that offers high-speed internet access, data and voice services for businesses in urban and suburban areas. It can be used to provide complete wireless access and distribution from indoor to outdoor in many campus and industrial environments.

BroVis has set up a number of wireless deployments in Video Surveillance. For details, please contact [sales@brovis.com](mailto:sales@brovis.com) or concern sales persons.
