Brovis @ 20th Convergence India - March, 2012

BroVis Wireless Networks participated in the 20th Convergence India 2012 held at Pragati Maidan, New Delhi. This international exhibition and conference is the largest and longest running Communications event in South Asia.

BroVis Wireless Networks displayed new SMART MIMO CPEs, innovative and carrier class products with enhanced features to provide Smart Access for Mobile Networks, Carrier Class Broadband Wireless Distribution and State-of-the-art Cloud Networking.

We enjoyed the inspiring conversations and were delighted to host a number of visitors to our booth.

BroVis also garnered a lot of media attention including write up of our new product launch.

BroVis demonstrated Cost-effective Rural Initiative at the Open House Meet held in January, 2012

Rural kiosks help villagers improve their standard of living by expanding livelihood options and empowering them with information, tools, goods and services (such as education, scientific farming, healthcare).

- Villagers avail the internet access in the Kiosk Centre to easily utilize e-services and e-learning.
- Everything is secured and managed in BroVis Centralized Datacenter - easy access, comprehensive database management, Network Monitoring, Security Manager, Billing Manager, etc..
- Leveraging converged services in education, agriculture and healthcare sector
- BroVis Products enable Cost-effective implementation with no compromise in performance, features and functionality.
