## BroVis has been granted ISO 9001:2008 Certification

BroVis Wireless Networks was recently awarded ISO 9001:2008 certification for its Quality Management Systems. This certification covers areas like design, manufacturing, sales and service of Wireless Access systems.

Congratulating the partners, customers and employees of the company, Muthu Logan, founder and CEO, BroVis Wireless Networks said, "A million Thanks to our team members, customers, partners and stakeholders. Everyone will immensely benefit by this now and going forward."

## BroVis @ 19th Convergence 2011

BroVis Wireless Networks participated in the 19th Convergence India 2011 held at Pragati Maidan, New Delhi. This international exhibition and conference is the largest and longest running Communications event in South Asia. It is also the only forum in India to showcase the convergence of telecommunication, voice and data networks, fixed and mobile networks, internet, computing delivery of content, television, satellite communications and entertainment applications.

The exhibition gave us the opportunity to listen to representatives from various industries. We enjoyed the inspiring conversations, and were impressed with the number of visitors to our booth.

BroVis exhibited its new NXP Series of products and services comprising of SMART Wi-Fi Mobile Access, Carrier Class Broadband Wireless Distribution and Cloud Networking. Thanks to all the folks who visited us and for showing a lot of interest in our products.

## BroVis' role in Cricket World Cup - 2011!!

Indian cricket team created history in the Wankhede stadium by winning the ICC Cricket World Cup for the second time after a gap of 28 years.

We are delighted to let you know that BroVis Wireless Equipment was selected and installed at the Wankhede Stadium just before the World Cup Finals-April 2,2011. Lot of the secure access was done through our highly secure and SMART systems.
